Outside the Box Events ...

At Outside the Box Events, we are full service event planners which means that in addition to weddings, your wedding coordinator has produced hundreds of events. This includes experience with many detailed technical aspects that most wedding planners do not have. Technical details include, live show timing, lighting, video production, sound and much more. **This is how we take your wedding to the NEXT LEVEL!**

Your wedding planner at Outside the Box Events works in a firm with many other planners and your wedding will be supported by all those in the firm. This includes brainstorming, technical aspects, on-site production and coordination. Don't leave your most important day in the hands of a sole person who could get sick or need additional help on the day of the wedding. With Outside the Box Events, your wedding will be in the hands of an entire full service event planning firm. **This is how we take your wedding BEYOND YOUR DREAMS.**

We have all seen hundreds of weddings and know that there are many websites and other materials that showcase cookie cutter weddings. At Outside the Box, we think that doing what other wedding coordinators, websites and programs do is just the first step. Our firm spends many hours brainstorming your wedding so it will be tailored especially to you. We want your wedding to be fun and unique - the one that starts the new wedding trends, not copies the old. **This is how we take your wedding OUTSIDE THE BOX!**
